Feedback on team dynamics:

1. How effectively did your group work?

Our group worked quite effectively. We communicated regularly, shared our ideas, and divided the tasks between members. Everyone contributed to the project, and we managed to complete the work on time.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

Some team members were especially helpful because they stayed organized and made sure everyone understood their tasks. This helped the group stay on track. There were a few moments when communication could have been better, but overall the team supported each other and worked cooperatively.

3. What did you learn about working in a group from this project that you will carry into your next group experience?

From this project, I learned that clear communication and task division are very important in group work. It is also important to respect different ideas and support each other to achieve the best result.
